Safety Roundtable

Distracted Driving and Driving S.A.F.E.

Central Pennsylvania Chapter IEC

Is pleased to present this important information
at NO CHARGE to members.

This session will cover best practices for your company fleet.

The majority of all auto crashes can be traced back to four driving behaviors: Speed, Attention, Fatigue, and Emotion. Branded "Drive S.A.F.E.," Federated Insurance's driver awareness program helps business owners and risk managers call attention to these behaviors to help their employee drivers understand the risks each can present, and their resulting consequences.

Our expert presenter will be Jerry Harness of Federated Insurance .

After the presentations, there will be time for a Roundtable discussion for IEC members to share challenges, tips, ideas, and possible solutions to safety-related topics.

Registration – complete below and return by October 13, 2017

Company name:

Attendee name(s):

- 1.
- 2.
- 3.

Fees: NO CHARGE to members!
